

APPLICATION

Small aperture medium distribution downlight is suitable for commercial, retail and institutional applications that require a flush mount micro-flange trim.

PRODUCT DATA

REFLECTOR: The parabolic reflector redirects spill light from the lamp, and eliminates high angle glare. Narrow (3/16") trim flange is flush with ceiling line for a clean appearance and smooth transition between the ceiling and fixture aperture. Supplied standard with Specular Clear Alzak, other reflector finishes are available in order to provide maximum flexibility to the designer.

HOUSING: Heavy gauge galvanized steel housing provides a secure mounting platform for the electrical components and protects the optical assembly. Integral plaster ring allows drywall compound to be applied up to edge of aperture. Trim flange rests in a flush mount position with drywall compound. Housing can be mechanically fastened to drywall to prevent movement and eliminate cracking or chipping.

MOUNTING: Universal mounting brackets adjust vertically 2.5" and accept a variety of hanger bars, C-Channel, EMT or rigid bars (see optional accessories). For slope ceiling consult special section of catalog.

ELECTRICAL: 120 to 277 volt input 50 to 60 Hz high power factor electronic ballasts are programmed start, under 10% THD. Consult Technical Section for additional ballast operating data. Optional emergency ballast (-EM) operates one lamp for 90 minutes, faceplate with test switch and charger light. Integral push to test switch available. Contact factory for more information.

JUNCTION BOX: Heavy gauge galvanized junction box pre-wired with grounding pigtail. Easy access covers. Multiple conduit knockouts listed for through branch circuit wiring.

SOCKET: Positive latch four pin thermoplastic. 26, 32 and 42 watt models feature a twist lock socket. 13 and 18 watt models feature a push in socket. Triple tube models have field adjustable socket position to allow conversion to alternate wattage.

LAMP DATA:

LAMP	WATTS	BASE	BALLAST	LUMENS
Triple Tube 4-Pin	26	GX24q-3	Elec.	1800
	32	GX24q-3	Elec.	2400
	42	GX24q-4	Elec.	3200
Quad Tube 4-Pin	13	G24q-1	Elec.	900
	18	G24q-2	Elec.	1250
	26	G24q-3	Elec.	1800

Standard lamping, initial lumens.

Manufactured and tested to UL#1598 and CSA standards. Note: Suitable for damp location and wet location under covered ceiling.
