SUSPENDED GLASS DISCS

Tempered glass disks in single and multiple tiers are suspended from reflector flange by stainless fasteners and spacers. Sandblasted finishes create an elegant glow that stimulates visual excitement in the interior space while offering a shielding effect that enhances visual comfort. Glass is available in soda lime (green tint), borosilicate (white), cobalt blue and custom colors. Other sizes, materials, and finishes are available by contacting your local representative.

SERIES ICE

OPEN APERTURE DISK

A single disk is frosted to within 3/4" of edge and features a 4" opening in the center. Shown in soda lime and cobalt blue glass.
See disks on the right.

SERIES IC

SOLID DISK

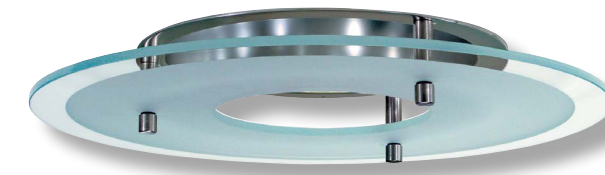

Solid glass disk is frosted in the center and has a 3/4" clear outer ring.
See disk on the left.

SERIES IC12

OVERSIZE SOLID GLASS DISK

12" diameter solid glass disk with frosted center is shown in soda lime glass with frosted inner ring and stainless fasteners.
See disk on the right.

SERIES ICE12

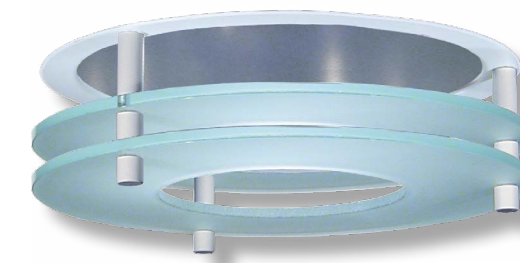

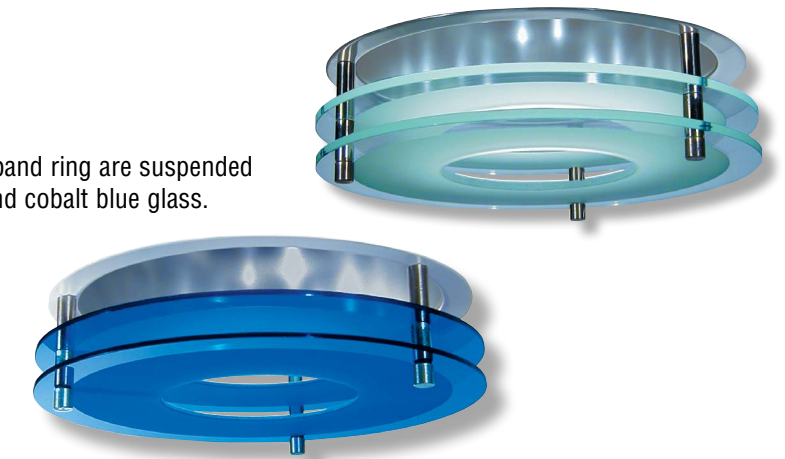

12" DIAMETER OPEN APERTURE DISK

Oversized disc is frosted with a 1/4" wide clear outer ring and features a 4" diameter center opening. Shown in soda lime glass and available with frosted designs in custom patterns.
See disk on the left.

SERIES 2ICE

TWO TIERED DISKS

Two tiers of open aperture discs each with frosted inner band ring are suspended from flange by stainless fasteners. Shown in soda lime and cobalt blue glass. Requests for more than two tiers are accommodated.
See disks on the right.

SERIES IFE

FULLY-FROSTED GLASS DISK

Open aperture glass disk is fully frosted to the edge for an opaque effect. Shown with optional white fasteners (WH). Tiered multiple disks are available.
See disk on the left.

SERIES IDE

OPEN APERTURE DISK

Glass disk features a 4" diameter center opening, 1 1/2" clear inner ring and 1 1/8" frosted outer ring. Tiered, multiple disc styles are available.
See disk on the right.

DECORATIVE ELEMENTS

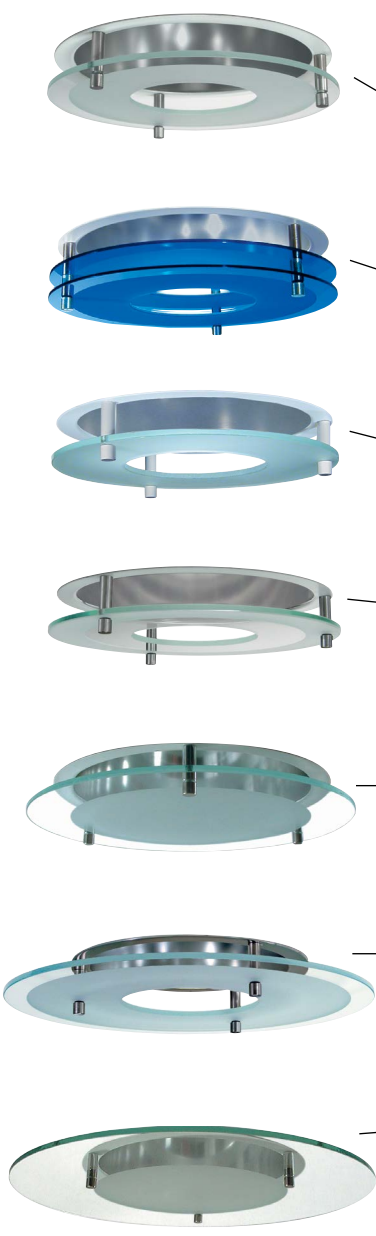

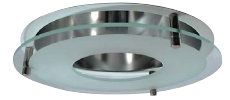

X= Provision for Decorative Accessory

How to Order:

1. Select Housing/Reflector

2. Specify desired Decorative Element
